NETWORK PARTNER
System Pricing

Only Pay for What You Use

As a training provider, the number of users in your portal is going to continue to rise each time a new person signs up for your training. Under the standard pricing model you pay per user, but we appreciate that you don't want to continue paying for a customer who only used the system once. Instead, we would like to offer a custom pricing structure designed specifically to suit your needs.

With transactional pricing, rather than paying a monthly fee based on the total number of users in your portal, you only pay for the services used.

IT IS THAT SIMPLE.

Already a Partner?

For a Network Partner already utilizing the BIStrainer software, taking advantage of a custom pricing structure gives you benefits that never previously existed:

Amazing Flexibility	Potential Savings	Greater Scalability	Peace of Mind

Software Modules

Each Module has Been Designed in Collaboration with Leading Safety Professionals
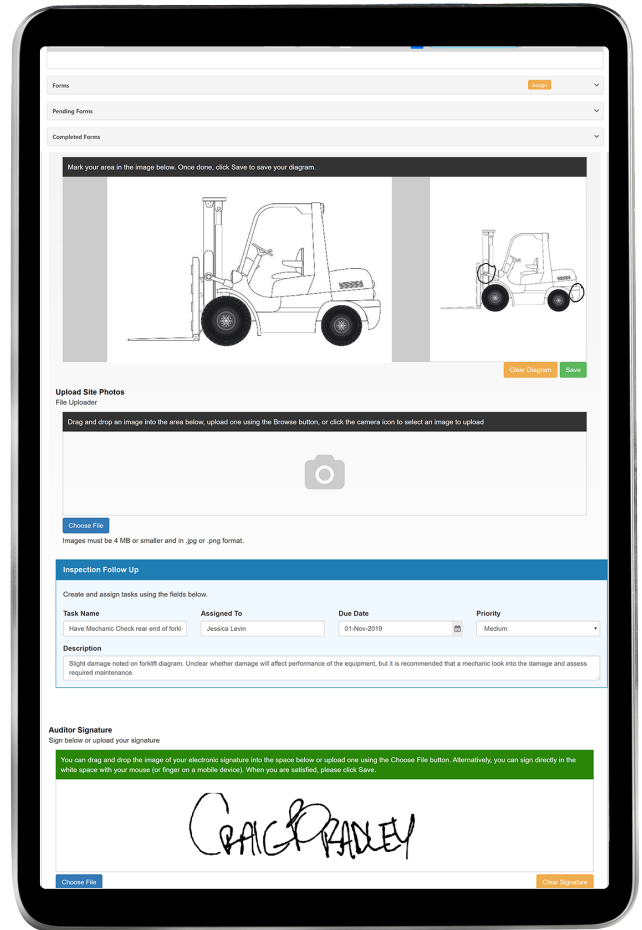

Learning Management System

Quickly move your classroom courses online with the online course builder, which includes an exam engine, SCORM compatibility, and can accept countless media types - all included in the LMS.

Classroom Calendar

Save time and effort on administration by managing your classroom courses online. Never double book a room, instructor, or over sell a course again. Includes course notifications and self-registration.

Digital Forms

Create and complete online forms for incident investigation, site audits, field level hazard assessments, pre-trip inspection, HR documents, and much more. Remote access and offline editing makes form administration seamless.

Digital Folders

Collaborate more efficiently than ever. Like folders on a desktop, you can upload multiple documents and files into a cloud-based storage location for your team. Use it for HR documents and permission management, equipment documents, digital form storage, and more.

Training Record Management

Uploading hundreds of employee training records should be easy. You can upload employee training records, including a copy of each certificate, regardless of the training provider.

Asset Management

Asset tracking made easy. Create profiles for any piece of equipment or asset your company owns. Manage safety forms attached to the assets and keep everything up to date with automated notifications and reporting.
